WELCOME TO CREATIVITY INTERNATIONAL CREATIVE PAPER AND CRAFTS

Creativity International (CI) began supplying the education market with top quality display materials more than 25 years ago. From those beginnings we have become a leading supplier of speciality display products in Education and have since developed and sourced products to expand our offering into other markets. As well as continually extending our display offering, we now have a host of other categories like Creative Papers, Art & Craft essentials, Teaching aids and Craft kits.

In June 2018 The Pacon group and the various businesses within that family, including Creativity International, were acquired by the F.I.L.A. Group, based in Milan, Italy. This means that we now benefit from having manufacturing facilities in many parts of the world producing fabulous speciality materials for all the markets that we offer our products to. The breadth of our creative product range has never been bigger and continues to grow! From 2020, CI will be part of Daler-Rowney to become the leading supplier in Fine Art and Education.

DISPLAY PRODUCTS

Our unique Fadeless® Paper has played a small part in the vast improvement in the standard of display in schools over the past fifteen years. This range of bespoke Display Papers was developed in California, to combat the long hours of sunshine and subsequent bleaching of wall displays.

The result is a stunning range of vivid fade resistant papers, which will keep displays looking bright for months.
