Ground-breaking + Inspiring = Successful  
Resources Teachers Learners

Our commitment...

At Junior Learning we pride ourselves on having the best value resources - best prices and best educational quality. We innovate to create new ways for kids to learn and achieve their best.

Supporting you...

Every Junior Learning resource has been developed by educational neuroscientist Dr. Duncan Milne. As such, we include things that make teaching easier, including: simple to follow instructions, opportunities for self-correction, color-coding support, rich content and hands on fun. Our educational resources will save hours of preparation time and the multi-sensory approach will engage even the most reluctant learner.

At Junior Learning, we are committed to making sure our products are strong in educational content, but with the excitement of a real toy or game.

Welcome to

Hello and welcome to our 2021 catalogue, filled with our unique and innovative educational resources.

This year, we have launched a wonderful collection of new products, including 300 new decodable readers, workbooks, puzzles, cubes, games and manipulatives. We are fortunate to have so many inspiring and creative people at Junior Learning who have contributed to this team effort. We also are grateful for your support on this journey. Together, we are excited about helping all children achieve their best.

Junior Learning – for the love of learning.
